

Product information

Lebosol® - Total Care

Organic mineral NPK fertiliser 9-1-2

9.4% Total nitrogen (120 g/l N); 0.9% Total phosphorus (10 g/l P₂O₅); 2.7% Total potassium oxide (35 g/l K₂O)

also contains:

0.05% Water-soluble boron as boron ethanolamine (1 g/l B); 0.3% Water-soluble copper as copper nitrate (4 g/l Cu); 1.5% Water-soluble manganese as manganese nitrate (20 g/l Mn); 0.5% Water-soluble zinc as zinc nitrate (6 g/l Zn); 1.7% water-soluble magnesium (20 g/l MgO); 11.6% Org. substance

Crops with nutrient deficiency will be more susceptible against diseases and abiotic stress. Foliar fertilization with macro-and micro-elements will ensure an optimized plant nutrition.

| Crop | Aim/Problem | Recommendation | Time |
|--------------|---|--|---|
| In all crops | For nutrient supply, vitality, leaf quality, yield, photosynthesis rate | Fertigation | Ask your consultant |
| In all crops | Adjuvant for improvement of efficacy and crop safety with post- emergence herbicide applications, yield, vitality | 2 – 4 l/ha | In combination with fertilizer or plant protection application (Especially in extreme weather conditions) |
| In all crops | Seed dressing with nutrients for improved early growth development | 0.2 – 0.5 l/dt | As seed dressing |
| In all crops | To cover periods with poor growth conditions | 3 – 6 l/ha (Upon application with backpack sprayer 0.5%. Do not use during flowering!) | When required |
